

Learn & Earn Academy
Institute for Stock Market Education

COMPLETE STOCK MARKET COURSE

**“Beginners Guide to
Stock Market Investing”**

Transforming A beginner to An Investor

About Us

Learn and Earn Academy is a financial markets educational institution set up in 2014, with its main objective to impart in-depth education and training in the field of financial markets to the aspirants who are willing to start investments in financial markets at their own.

This institute has been started by Mr. ABK. Ganesh, who is having 12 years of rich experience in the areas of financial markets and CFP aspirant.

Why we introduced this course ?

With the sensex crossing the level of 25,000 points, a major portion of public has become interested in investing their funds in the stock markets. However due to limited knowledge of the financial markets and financial instruments, a majority of the investors burnt their fingers in the stock market crashes, keeping this cause in view we have started a new course called "COMPLETE STOCK MARKET COURSE" in which we are teaching from basic to advanced levels in the areas of not only stock markets but also over all financial markets like Commodities, Currencies, Mutual Funds, Debt instruments and Insurance.

We believe in life time relationship for our entire students, once you join the Learn and Earn Academy, then we will take care you for long period of time.
